

## Dandelion Playdough

If you have a favorite home-made playdough recipe you can use that recipe - and just add in dandelions! I like this recipe because mixing the hot water and the flowers turns the playdough a pretty yellow!

This is an activity that everyone can help make.

Ingredients:

1 cup Dandelion flowers - picked when fully open (about - the more flowers the deeper the color)

1 cup boiling water

2 cups flour

$\frac{1}{3}$  cup salt

2 tablespoons oil

1 - 2 teaspoons cream of tartar

- ★ Begin by boiling water and setting aside.
- ★ Mix the dandelion flowers and the hot water in blender (if desired - this helps create the color)
- ★ Pour dandelion water mixture into bowl and add salt, oil and cream of tartar. Mix well.
- ★ Add 2 cups of flour mix well - you might need to use your hands! If the dough is really sticky add more flour (a little at a time) until it is smooth and no longer sticks.
- ★ PLAY!
