

Mud Painting

There is another way you can enjoy mud and be creative at the same time:

Mud painting!

Gather materials:

- Mud
- A flat surface (rock, stump, piece of wood or cardboard)

Optional:

- A stick or brush for painting
- A rag (it is messy!)

Once you've got everything you need, smear mud all over the flat surface like this (Use your hands.... This is the best part!)

Now that you've got your surface covered with mud - you're ready to paint! Use your fingers, a stick or a brush to scrape the mud away and leave a design. Here are some examples to inspire you!
